just 20 years old. He remained there until he came to Canton in 1836. Mr. Bour was a tailor by trade and very soon got the reputation of being one of the best in that line of business in the county. In those early days we had no clothing stores, or merchant tailors, the dry goods kept cloth and trimmings from which the garments were to be made, and it was quite a common practice to bring the tailor with those who wanted new garments, to select the cloth and trim-mings. I can well remember seeing Mr. Bour acting in that capacity and going with customers to Isaac Harter. Martin Wikidal, O. T. Browning V. R. Kimball and other stores of those days and helping to select the cloth and trimmings for suits of clothes to be made by him.

After a while the habit of leading ers, made to order, came in vogue and Nicholas Bour and Michael Weisert were among the first to do this in

I should have said that the upper story in the three story brick building which Nicholas Bour built on West Tuscarawas street in 1846 was used as a hall. The Odd Fellows occupied it for some years in conducting the work of their order and I think that the "Know Nothings" which flour shed as a political organization for some time also held some meetings in this hall. They also held some of their meetings in the hall owned by Martin Wikidal, known as the Farmers and Merchants' block.

TILLMAN-M'LAURIN INCIDENT IS CLOSED

Senators Are Censured in a Resolution -- Tillman Makes Angry Answer to Roll Call.

Washington, March 1 .-- Senators Mcaurin and Tillman, of South Carolina, Ken (N. J.) to rise at the conclusion were severely censured yesterday by the United States senate for the sensational personal encounter between the two senators on the floor of the senate last Saturday during the consideration of the Philippine tariff bill. The adoption of the resolution of censure probably closes the incident, so far as Mr. McLaurin or the senate is concerned.

Immediately after the senate convened Mr. Burrows, chairman of the committee on privileges and elections, to which the McLaurin-Tillman con troversy had been referred, reported the resolution of censure framed by a majority of the committee. Accompanying the resolution was a report setting out the conclusions of the majority.

The resolution was adopted by a vote of 54 to 12. When Mr. Tillman's name was call-

ed he added a new sensation to the proceedings by rising and saying with ill concealed emotion: "Among gentlemen an apology for an offense committed under heat of blood is usually considered sufficient."

The auditors caught their breath a Mr. Tillman thus entered his protest
